ELECTION/RESTRICTION

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group 1: claims 1-10 and 23-46, drawn to an ink cartridge, classified in Class 347, subclass 86.

Group 2: claims 13-15, drawn to an ink refilling method, classified in class 347, subclass 85.

Group 3: claim 16, drawn to a manufacturing method of an ink cartridge, classified in class 29, subclass 890.01.

Group 4: claim 17, drawn to a recycling method of an ink cartridge, classified in class 264, subclass 36.1.

Group 5: claims 18-21, drawn to an ink bag holding member, classified in class 141, subclass 313.

Inventions 1, 2, 3, 4 and 5 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the invention 1, 2, 3, 4 relates to an ink cartridge, an ink refilling method, a manufacturing method of an ink cartridge, a recycling method of an ink cartridge respectively while the inventions 5 relate to an ink bag holding member.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
